ANS Aircon Engineers was Established in 2004 in Pune India by Mr Nagendra Singh. We at ANS Aircon Engineers aim at and Produce the highest quality Design, engineering, installation and service of heating ventilation and Airconditioning system (HVAC).

- » Our philosophy is "Enhancing comfort to places where people gather, live, work and relax".
- » Our business ethos constitutes Client Focus, Integrity, Teamwork, Quality and Communication.
- » Our professional intent is to recognise the needs of our customers in the forms of individuals and organisations, and exceeding their expectations with best-in-class products and services.

Overview

The genesis of **ANS Aircon Engineers** stems out from its diversified business divisions, distributing products that are cost effective, efficient, user-friendly, operable and result-oriented, and adaptable to functioning of clients' perspectives and priorities in the HVAC (Heating ventilating Air-conditioning) industry, and they are Sales and Services of CAC (Commercial Air conditioners) and RAC (Room Air conditioners). With business insights, we have partnered with reputed brands like **LG, HITACHI** etc., to provide international quality products known for their technological superiority and innovation, through our business divisions of CAC and RAC, coupled with related services. With extensive research of the industry and the demography, we have formulated the business divisions, in order to meet the requirements of CAC and RAC requirements across households and verticals. The equipments are seemly innovative, and value for investment.

- Our intent is to leverage the depth of our skills and expertise in installing, executing and maintaining service quotient with top quality performance. The company's endeavour is to augment the brand equity, and garner customer satisfaction and loyalty through these business divisions.
- Our After Sales Service and Consultancy modules take care of the most daunting task of providing solutions unto customers' satisfaction, with required expertise, skills and acumen. We have been able to mobilise products and services, catering to the ever demanding service needs of the highest level with a full-fledged service centre.
- We recognise the customers' perspectives. Our core virtuality is the diligence with which we execute projects of high magnitude with utmost efficiency and comprehensiveness.
- The astuteness and competence of our experienced staff translates into results. Their knowledge, efficiency and competence to close calls on the very initial service visits, and the ability to handle customers' grievances with an amiable approach have been integral fortes of the company.

**Propositionally, we have collaborated with reputed names like
M/s. LG ELECTRONICS (I) PVT. LTD.**

M/s. HITACHI HOME & LIFE SOLUTIONS(I) LTD.

Prime Objective

- 1.Understanding customer's needs and specification and adhering to them at all cost.
- 2.Understanding architects design requirements and fitting in best possible solution in there.
- 3.Developing and designing a system aiming at simplicity, cost effectiveness and maintainability.
- 4.Work in a time bound manner so as to deliver as per promised schedule.
- 5.Emphasis on Power conservation and energy efficient solution.
- 6.Utilization of system to achive optimal performance.
- 7.Logistic prowess in site co-ordination and execution in tandem with other agencies.
- 8.Fulfill commitments at all cost.
- 9.Working on any feedback on Priority basis.
- 10.Working on any feedback on Priority basis.

Commercial/industrial full service sales,design and installation.

ANS commercial division specializes in quality commercial HVAC system installation,maintenance and building automation systems.our team of qualified technicians and engineers provide solutions for energy audits,airconditioners,heat pump ,boiler,chillers,vrf/vrv systems cooling tower/chiller duct system,ventilation system,economizers,humidifiers,dehumidifiers,and air cleaners.As a full-service sheet metal products manufacturer,ANS is able to reduce typical outsources material costs while maintaining additional levels of quality control and customization ability.Cost effective main tenance plans are available to ensure your HVAC systems operates at ideal efficiency levels while maintaining ideal interior air quality and to ensure overall heating or air conditioning or heating system longevity.ANS regularly provides commercial HVAC services for many of Pune and surrounding area industrial belts.Our company has established a strong reputation of effectively operating in the time critical environment and also received ongoing training for best installation practices .jobsite safety standards and regulatory compliance ANS offers competitive pricing and additional value to our commercial HVAC customers.

Residential- quality Air-conditioning and ventilation for your home

ANS specializes in home efficiency and home comfort systems.our technician provide quality service and install,airconditioners,heat,pump,furnace,boilers,humidifiers,dehumidifiers and air cleaners.home energy audit services are available to provide and practical green solutions including solar geothermal,and insulation services.our qualified residential HVAC technicians provide timely repair service.airconditioning and heating system retrofits or custom designed solutions for new homes construction .ANS is able to offer competitive pricing and additional value to our customers.we service all makes and models of heat pump,air quality equipment.ANS also offers comprehensive and cost effective service plans to ensure your HVAC system maintain optimum operating efficiency and overall longevity.

Product

Process Ventilation system

1. Duct fans, Duct axial fans,
2. Centrifugal fans
3. In line centrifugal fans
4. Turbo blowers
5. Industrial exhausters
6. Pressure blower

General ventilation

(Basement staircase, Pressurization)

1. Propeller fan and wall ventilators
2. Power Roof Ventilators
3. Centrifugal exhauster
4. Cool blast fans

Precision Air quality control System.

Indoor air quality control

1. Fan filter units
2. Electro static air cleaner
3. For commercial and industrial application
4. UV light sterilizing system for ahu

VRF/VRV System

- 1.Split units
- 2.Cassette units
- 3.Ducted system
- 4.zonal system.

Chiller system

- 1.Aircooled system
- 2.Water cooled system

Types of HVAC system and Services Provided by ANS AIRCON

- 1.Sales of VRF/VRV and chiller equipments.
- 2.Testing ,commissioning and Balancing.
- 3.Maintenance and Repairs management.
- 4.Operation management.
- 5.Comfort application splits and VRF comfort applications are simply described as air conditioning requirement in the range of 22-24 c
- 6.Process application(HVAC) .this application is mainly for an industrial or factory setup where ventilation is as important as air conditioning in maintaining a comfortable environment.
- 7.Precision air conditioning this is an application specifically used for treatment of air quality in server room and datacenter.
